ANONDO ROSEMONT ESTATE

Where Elegance Becomes Heritage

MOTTO: ELEGANTIA IN AETERNUM — ELEGANCE FOREVER

1. Introduction to Anondo Rosemont Estate

In the evolving landscape of modern Bangladesh, where cities continue to expand vertically and space becomes increasingly limited, a quiet yet powerful transformation is emerging. Families are beginning to rediscover the timeless value of land ownership, open spaces, and homes that offer both dignity and permanence.

Anondo Rosemont Estate is conceived as a response to this transformation.

Located in the serene landscape of **Ulukhola, near Purbachal New Town**, on the southern side of the **Turag River**, the estate is envisioned as a landmark residential development where European elegance meets the natural beauty of the Bhawal region.

Spread across an impressive **807 bigha of carefully planned land**, Anondo Rosemont Estate is designed as a **low-density duplex villa community** that offers the luxury of space, privacy, and lifestyle amenities rarely available in contemporary housing developments.

This estate represents more than a housing project. It is a carefully curated residential environment designed to provide:

- Permanent land ownership
- Elegant duplex villas
- Secure gated living
- Natural landscapes and waterfront serenity
- Recreational and community facilities
- A stable and appreciating investment opportunity

Inspired by the aristocratic charm of European countryside estates and grounded in the warmth of Bangladeshi heritage, Rosemont Estate creates an environment where families can live, grow, and pass on their legacy to future generations.

For **domestic homeowners**, it offers a rare opportunity to move beyond apartment living into a dignified estate lifestyle.

For **Non-Resident Bangladeshis (NRBs)**, it provides a secure and prestigious residential base in their homeland — a place where their success abroad can find a permanent and meaningful home.

Under the guiding principle “**Elegantia in Aeternum**”, Rosemont Estate is built not merely for today, but for generations.

2. The Identity of Rosemont

The name **Rosemont** carries a timeless European resonance.

“Rose” symbolizes beauty, romance, and natural elegance.

“Mont” refers to elevated land — a gentle rise that signifies prestige and presence.

Together, **Rosemont** evokes the image of a refined hillside estate where gardens flourish and homes stand with grace and dignity.

When combined with the trusted name **Anondo**, the identity becomes complete:

Anondo Rosemont Estate

A place where elegance becomes heritage.

The brand is built on four guiding pillars:

Elegance

Architecture, landscape, and infrastructure designed with refinement.

Legacy

A development meant to serve not only present residents but future generations.

Community

Spaces where families, neighbors, and cultures coexist harmoniously.

Security

A carefully planned environment offering peace of mind for residents and investors.

These values shape every aspect of the estate’s planning and development.

3. Chairman’s Foreword

Every meaningful development begins with a vision that seeks to elevate the quality of life.

Throughout my professional journey in land development and housing initiatives, I have witnessed the profound transformation of our cities and communities. While urbanization has created new opportunities, it has also brought challenges—particularly the gradual loss of open space, privacy, and connection with nature.

Anondo Rosemont Estate was conceived as a thoughtful response to this reality.

Our aim was not simply to develop land, but to create an environment where families can experience the dignity of estate living—where homes are surrounded by gardens, streets are lined with greenery, and community spaces encourage healthy and harmonious living.

Located in the tranquil surroundings of Ulukhola near Purbachal, Rosemont Estate blends natural beauty with structured planning. Its wide avenues, lakefront landscapes, sports facilities, community farming spaces, and elegant duplex homes reflect a commitment to balanced living.

For many Bangladeshis living abroad, the dream of returning to a peaceful and secure home in their homeland remains deeply cherished. Rosemont Estate offers them an address that combines international standards of planning with the warmth of Bangladeshi community life.

Under the guiding principle “**Elegantia in Aeternum — Elegance Forever,**” we dedicate this estate to families who believe that a home is not merely a structure but a foundation of heritage.

I warmly welcome you to **Anondo Rosemont Estate**,
Where elegance becomes heritage.

Gazi Md. Mozammel Hoque
Chairman
Anondo Real Estate Group

4. Founder's Vision

The vision behind Anondo Rosemont Estate emerged from a simple yet profound belief: a home should provide not only shelter but also space for life to flourish.

In many modern developments, the pursuit of density often overshadows the need for openness and balance. Buildings rise higher while green spaces diminish. Families live closer together yet feel increasingly distant from nature.

Rosemont Estate was designed to restore that balance.

By adopting a **low-density villa model**, the estate allows residents to enjoy private homes surrounded by gardens and open landscapes. Each plot accommodates a thoughtfully designed duplex house, ensuring architectural harmony throughout the community.

The estate integrates natural elements such as lakes, parks, and farming spaces, encouraging residents to reconnect with the environment.

This vision also recognizes the importance of long-term investment security. Land ownership remains one of the most reliable forms of wealth preservation. By combining land ownership with carefully designed residential infrastructure, Rosemont Estate offers both lifestyle and financial value.

Above all, the vision of Rosemont is about creating a community where families can thrive—where children grow up surrounded by greenery and where neighbors share a sense of belonging.

5. Estate Vision & Design Philosophy

The planning philosophy of Anondo Rosemont Estate draws inspiration from classical European estate development while adapting to the environmental and cultural context of Bangladesh.

Low Density Living

The estate is deliberately designed with spacious plots and controlled density, allowing residents to enjoy privacy and comfort.

Plot categories include:

- **5 Katha plots**
- **10 Katha plots**
- **20 Katha plots**

Each category accommodates a specifically designed duplex villa.

Elevated Plot Design

Every residential plot and house is constructed **18 to 24 inches higher than the road level**, providing:

- Improved drainage
- Greater visual presence
- Protection from surface water

Open Front Concept

Unlike conventional housing developments, Rosemont adopts an elegant open frontage design.

- No boundary walls at the front
- Lawn-based open streetscape
- Pillar-based demarcation of plots

Boundary walls are provided only at the back and partial sides, ensuring privacy without disrupting the estate's visual harmony.

6. Master Plan Overview

Anondo Rosemont Estate spans **807 bigha of land** and follows a structured master plan integrating residential zones, recreation areas, and community facilities.

Plot Distribution

- **5 Katha plots:** 900 units
- **10 Katha plots:** 450 units
- **20 Katha plots:** 90 units

This balanced distribution allows families with different needs and budgets to become part of the estate community.

Road Network

The estate features a hierarchical road network including:

- 60-foot wide Grand Avenue
- 40-foot wide secondary avenues
- 25-foot roads serving smaller plots

These wide streets enhance accessibility while creating a spacious urban environment.

7. Natural Features and Landscapes

Nature forms the heart of Rosemont Estate.

The 12-Bigha Estate Lake

A large scenic lake provides:

- Waterfront walking paths
- Cooling microclimate
- Recreational and aesthetic value

The 12-Bigha Central Park

A beautifully landscaped park offers space for:

- Family gatherings
- Outdoor activities
- Cultural events

Community Farming Zone

An extraordinary feature of the estate is the **community farming area**, where residents can cultivate plants, vegetables, or flowers as a hobby.

This initiative reconnects residents with the agricultural heritage of Bangladesh while promoting healthy living.

8. Location Advantage

Anondo Rosemont Estate is located in **Uluhola**, adjacent to the rapidly developing **Purbachal New Town**.

The area offers exceptional connectivity and growth potential.

Strategic Benefits

- Close proximity to Purbachal development corridor
- Natural river environment along the Turag
- Peaceful rural setting with urban accessibility
- Near major infrastructure development projects

One block of the estate is uniquely situated on a **river island**, creating a rare waterfront living experience.

The estate also benefits from its adjacency to **Anondo Baari Senior Citizens Wellness Center**, forming part of a broader lifestyle ecosystem developed by Anondo Group.

9. The Villa Living Concept

One of the defining features of **Anondo Rosemont Estate** is its commitment to true **villa living**.

In most modern housing projects, residents often receive only a plot of land and must independently design and construct their homes. This often results in architectural inconsistency, construction delays, and quality variations across the neighborhood.

Rosemont Estate adopts a different philosophy.

Every residential plot within the estate will include a **carefully designed duplex house built by the developer**, ensuring architectural harmony, structural integrity, and aesthetic elegance throughout the community.

Residents will therefore receive a **complete residential property**, consisting of:

- The land plot
- A fully constructed duplex villa
- Boundary wall structure (rear and partial sides)
- Landscaped lawn areas
- Garage facility
- Optional swimming pool (for selected plots)
- Security infrastructure
- Utility connections and services

This integrated development model ensures that the entire estate maintains a consistent and refined architectural character.

The result is a residential environment that resembles the elegance and order of a European estate rather than a conventional plot-based housing project.

10. Plot Categories and Distribution

To accommodate diverse lifestyle needs and investment capacities, Anondo Rosemont Estate offers three distinct plot categories.

5 Katha Plots

Number of plots: **900**

These plots are ideal for families seeking elegant villa living with efficient land use.

Each 5 Katha plot will include a beautifully designed **2750 square feet duplex house**, providing ample living space while maintaining garden and open lawn areas.

House configuration:

Ground Floor: **1350 sq ft**
First Floor: **1400 sq ft**

These homes are designed for comfortable family living with well-balanced proportions between indoor and outdoor space.

10 Katha Plots

Number of plots: **450**

These medium-sized estate plots offer expanded living space and greater landscaping opportunities.

Each 10 Katha plot will include a **4500 square feet duplex house** designed for larger families and enhanced lifestyle facilities.

House configuration:

Ground Floor: **2000 sq ft**
First Floor: **2500 sq ft**

Owners of 10 Katha plots may also choose to add a **private swimming pool**, creating a luxurious resort-style living environment.

20 Katha Plots

Number of plots: **90**

The largest and most prestigious residential category within the estate is the 20 Katha plot.

These estate-scale properties are designed for families seeking grand villa living with expansive gardens and premium facilities.

Each plot will include a **7200 square feet villa**, with the option of duplex or triplex configuration.

House configuration:

Ground Floor: **4000 sq ft**
First Floor: **3200 sq ft**

Owners of these plots may optionally build a **triplex villa** and incorporate luxury features such as a private swimming pool and extended landscaped gardens.

11. Architectural Harmony

To maintain the aesthetic integrity of the estate, all villas are designed with a consistent architectural language inspired by classical European residential design.

Key architectural characteristics include:

- Balanced façade proportions
- Elegant balcony arrangements
- Large windows allowing natural light
- Functional internal layouts
- Integration with landscaped surroundings

The design philosophy ensures that every home contributes to the visual harmony of the community.

Instead of random architectural styles, the estate presents a unified and elegant streetscape that enhances property value and lifestyle quality.

12. Plot Demarcation and Boundary Design

Anondo Rosemont Estate introduces a unique plot boundary concept designed to balance openness and privacy.

Pillar-Based Plot Demarcation

All plots are demarcated using **strong structural pillars** deeply embedded in the ground.

A small visible portion of each pillar will remain above ground level, clearly marking property boundaries while maintaining an elegant open landscape.

This system avoids the visual clutter created by high boundary walls.

Open Front Concept

The **front side of each plot remains open**, featuring landscaped grass lawns rather than walls or fences.

This creates a visually continuous streetscape similar to classical European residential estates.

The open frontage promotes:

- Spacious street views
- Enhanced neighborhood aesthetics
- A welcoming and elegant community environment

Privacy Boundaries

While the front remains open, privacy is ensured through boundary walls constructed at:

- The back of each plot
- Half the length of the side boundaries

This design provides residents with private garden and family spaces while preserving the open character of the estate.

13. Elevated Plot and House Design

An important engineering feature of Rosemont Estate is the elevation of residential plots and houses.

All plots and structures will be built **18 to 24 inches higher than the road level**.

This elevation offers several advantages:

- Improved drainage and rainwater management
- Reduced risk of water accumulation
- Enhanced visual prominence of homes
- Better ventilation and airflow

The elevated design contributes both to aesthetics and long-term durability of the estate infrastructure.

14. Garage and Parking Facilities

Each villa within Anondo Rosemont Estate includes an **attached garage facility** integrated within the built structure.

This ensures secure and convenient parking while maintaining the architectural integrity of the home.

Garage design features include:

- Direct access to the house interior
- Weather protection for vehicles
- Adequate maneuvering space
- Provision for multiple vehicles in larger plots

For larger villas, parking areas may also extend into private driveways within the plot.

15. Optional Swimming Pool Facilities

For residents seeking an elevated lifestyle experience, the estate offers the option of installing **private swimming pools** within selected plot categories.

Swimming pool options are available for:

- 10 Katha plots
- 20 Katha plots

The inclusion of a pool is entirely optional and may be customized according to the homeowner's preferences.

These pools may be integrated with landscaped gardens to create a private leisure environment within the residence.

16. Security and Surveillance Infrastructure

Safety and peace of mind are central to the Rosemont living experience.

The estate will implement a comprehensive security framework including:

24-Hour CCTV Surveillance

Strategically installed surveillance cameras will monitor key areas throughout the estate, including:

- Entrance gates
- Major avenues
- Community facilities
- Public parks and open spaces

Controlled Estate Entry

The development will feature controlled entry points to ensure that only authorized residents and visitors access the estate.

Professional Security Personnel

Trained security staff will operate around the clock to maintain safety and order throughout the community.

17. Utilities and Infrastructure

The infrastructure of Anondo Rosemont Estate is designed to support a modern and comfortable lifestyle.

Planned utilities include:

- Road networks and street lighting
- Drainage systems for rainwater management
- Reliable water supply systems
- Power distribution infrastructure
- Waste management facilities

The infrastructure planning ensures that the estate functions efficiently while maintaining environmental balance.

18. A Community Designed for Generations

Anondo Rosemont Estate is not simply a collection of houses.

It is a carefully planned residential ecosystem designed to foster community life, recreational activity, and social harmony.

Wide roads, open landscapes, and shared facilities encourage interaction among residents while preserving individual privacy.

Families will find spaces for recreation, children will enjoy safe play areas, and residents of all ages will benefit from the calm and structured environment.

This is a community where lifestyle and legacy come together.

19. Lifestyle and Community Amenities

A truly distinguished residential estate is defined not only by its homes but by the quality of life it offers its residents.

Anondo Rosemont Estate has been carefully planned as a **complete lifestyle community**, where recreation, wellness, social interaction, and natural beauty coexist in harmony.

The estate integrates a wide range of amenities designed to serve residents of all ages—from children and youth to families and senior citizens.

These facilities ensure that life within the estate remains vibrant, active, and socially connected.

20. The Grand Sports Complex

One of the most exciting features of Anondo Rosemont Estate is its **Grand Sports Complex**, designed to encourage an active and healthy lifestyle.

The complex will serve as a central recreational hub where residents can engage in sports, fitness activities, and community events.

Facilities planned within the sports complex may include:

- Indoor sports courts
- Badminton and table tennis facilities
- Gymnasium and fitness center
- Multi-purpose sports courts
- Outdoor training and exercise areas
- Spectator seating areas for community tournaments

The sports complex will allow residents to maintain an active lifestyle without leaving the estate, promoting both physical fitness and social interaction.

21. Three Community Playgrounds

Children's recreation and outdoor activity are essential components of a healthy community.

For this reason, Anondo Rosemont Estate includes **three separate playgrounds** strategically distributed across the estate.

These playgrounds will provide safe and open spaces where children can:

- Play freely
- Participate in outdoor sports
- Build friendships with neighborhood children
- Develop healthy physical habits

The playgrounds will be equipped with appropriate play equipment and open green areas suitable for football, cricket, and other recreational activities.

By distributing these playgrounds throughout the estate, families will have easy access to recreational spaces close to their homes.

22. The Central Park – 12 Bigha of Green Serenity

At the heart of Anondo Rosemont Estate lies a magnificent **12-bigha central park**, designed as the primary green lung of the community.

This expansive landscaped park will offer residents a peaceful retreat from daily life while creating a beautiful visual centerpiece within the estate.

Features of the central park may include:

- Walking and jogging tracks
- Open lawns for relaxation
- Seating areas and shaded pavilions
- Landscaped gardens and flower beds
- Children's activity zones
- Spaces for cultural and social events

The park will serve as a gathering place where residents can spend leisure time, host community events, or simply enjoy the beauty of nature.

23. The Estate Lake – 12 Bigha Waterfront Landscape

Water is an essential element in creating a serene and balanced living environment.

Anondo Rosemont Estate features a **12-bigha scenic lake**, which will become one of the most iconic features of the community.

The lake will not only enhance the aesthetic beauty of the estate but will also create a refreshing microclimate and provide relaxing recreational opportunities.

Planned features around the lake may include:

- Scenic walking promenades
- Sitting areas and viewing decks
- Landscaped waterfront gardens
- Sunset viewpoints
- Pedestrian bridges or decorative structures

The presence of such a large water body within the estate significantly enhances both the lifestyle quality and long-term property value of the community.

24. Clubhouse and Social Center

A modern residential estate must provide spaces where residents can gather, celebrate, and interact.

For this purpose, Anondo Rosemont Estate includes sufficient land allocation for a **prestigious clubhouse and social center**.

The clubhouse may include facilities such as:

- Community banquet hall
- Indoor lounge areas
- Café or refreshment space
- Swimming pool
- Fitness and wellness areas
- Meeting rooms and event spaces

The clubhouse will serve as a social hub where residents can celebrate special occasions, hold community meetings, or simply relax with neighbors and friends.

25. Educational Facilities

Families often choose residential communities based on access to quality education.

Recognizing this need, Anondo Rosemont Estate allocates land for **educational institutions including a school and college** within or adjacent to the estate area.

These institutions will provide convenient access to quality education for children living within the community.

Having educational facilities nearby will also significantly enhance the attractiveness and long-term value of the estate.

26. Healthcare Facilities

Access to healthcare services is another essential requirement for modern residential communities.

Anondo Rosemont Estate includes provisions for a **hospital or medical facility** within the estate area.

Such facilities may offer:

- General medical services
- Emergency healthcare support
- Diagnostic facilities
- Outpatient services

The presence of healthcare infrastructure within the estate ensures that residents have convenient access to medical care whenever needed.

27. Religious and Cultural Harmony

Bangladesh is a country known for its cultural diversity and religious harmony.

Reflecting this spirit, Anondo Rosemont Estate provides land allocation for places of worship representing different faiths.

These include:

- Mosque
- Mandir (Temple)
- Church

By accommodating different religious institutions, the estate fosters an inclusive and harmonious community environment where people of all backgrounds feel welcome.

28. Commercial Facilities

To support everyday convenience, Anondo Rosemont Estate will include a designated **commercial area**.

This commercial space may include:

- Grocery stores
- Pharmacies
- Restaurants or cafés
- Essential retail shops
- Service centers

The presence of a commercial zone within the estate reduces the need for residents to travel outside for daily necessities, enhancing convenience and lifestyle comfort.

29. Community Farming Space

One of the most unique and innovative features of Anondo Rosemont Estate is the **Community Farming Zone**.

This dedicated area allows residents to engage in small-scale agricultural activities as a hobby or leisure activity.

Residents who enjoy gardening or farming may use this space to grow:

- Vegetables
- Fruits
- Flowers
- Herbal plants

Community farming promotes:

- Healthy outdoor activity
- Sustainable living practices
- Connection with nature
- Social interaction among residents

For many NRBs and urban families, this feature provides a meaningful opportunity to reconnect with the agricultural heritage of Bangladesh.

30. A Community Designed for All Generations

The facilities within Anondo Rosemont Estate are designed to serve residents across all age groups.

Children can enjoy playgrounds and open spaces.

Young people can participate in sports and recreational activities.

Adults can socialize through community events and recreational facilities.

Senior citizens can enjoy peaceful walks, gardens, and natural landscapes.

This balanced planning ensures that the estate remains vibrant and livable for decades to come.

31. Integration with Anondo Baari Wellness Center

Anondo Rosemont Estate enjoys the advantage of being located adjacent to **Anondo Baari Senior Citizens Wellness Center**, another visionary development by the Anondo Group.

This proximity creates a unique multi-generational ecosystem where families can remain close to elderly relatives while benefiting from specialized wellness facilities.

The presence of the wellness center enhances the social and emotional value of the Rosemont community.

32. A Secure Investment Opportunity

Real estate has long been considered one of the most reliable and secure forms of investment in Bangladesh. As urban populations continue to grow and land becomes increasingly scarce, carefully planned residential developments are expected to appreciate steadily over time.

Anondo Rosemont Estate represents a unique investment opportunity that combines land ownership with high-quality residential infrastructure and long-term development potential.

Several factors make Rosemont Estate a particularly strong investment:

- Large-scale master planning over 807 bigha
- Proximity to the rapidly developing Purbachal region
- Low-density villa community design
- Comprehensive lifestyle facilities
- Secure and gated residential environment
- Strong developer reputation

Unlike typical housing projects that focus primarily on plot sales, Rosemont Estate delivers **a complete residential property with a constructed villa**, ensuring that the development maintains architectural harmony and premium value over time.

For investors, this integrated approach significantly enhances both the **market attractiveness and long-term appreciation potential** of the property.

33. A Perfect Opportunity for NRB Investors

For many **Non-Resident Bangladeshis (NRBs)**, owning property in their homeland is both an emotional aspiration and a practical investment decision.

However, NRBs often face challenges such as:

- Finding reliable developers
- Managing construction remotely
- Ensuring property security
- Maintaining the property during absence

Anondo Rosemont Estate addresses these concerns through its **developer-built villa model** and structured estate management environment.

NRB investors benefit from:

- Ready-built duplex villas
- Professionally planned community infrastructure
- Secure gated environment
- CCTV surveillance across the estate
- Organized property boundaries and layout
- Potential estate management services

This makes Rosemont Estate an ideal option for NRBs who want to maintain a beautiful and secure home in Bangladesh without the complexities of managing construction independently.

For families living abroad, Rosemont becomes not only an investment but also **a place to return to — a home that represents identity, heritage, and belonging.**

34. The Strategic Advantage of the Purbachal Region

Location plays a critical role in determining the long-term value of real estate.

Anondo Rosemont Estate is strategically located in **UluKhola**, close to **Purbachal New Town**, one of the most significant planned urban developments in Bangladesh.

Purbachal is envisioned as a modern satellite city with world-class infrastructure and institutional facilities.

Key developments in and around the region include:

- Government administrative facilities
- Residential sectors and housing projects
- Educational institutions
- Healthcare facilities
- Commercial and business districts
- Major road networks and transport corridors

As these developments continue to expand, the surrounding areas are expected to experience strong growth in land value and infrastructure quality.

Rosemont Estate benefits from this growth while maintaining the advantage of a **quieter, more spacious environment outside the dense urban center**.

35. Proximity to Natural Landscapes

Another distinctive advantage of Rosemont Estate is its proximity to natural landscapes, including the **Turag River** and the green environment of the Bhawal region.

The project's location offers:

- Fresh air and open horizons
- Scenic natural surroundings
- A peaceful residential atmosphere

One block of the estate is uniquely positioned **on a river island**, creating a rare waterfront living experience within the broader development.

These natural elements enhance the quality of life for residents while increasing the uniqueness and attractiveness of the estate.

36. Long-Term Value of Villa Communities

Globally, low-density villa communities are among the most desirable residential environments.

Such communities offer several advantages compared to high-density apartment living:

- Greater privacy and independence
- More open space and greenery
- Better environmental quality
- Stronger community relationships
- Higher long-term property value

As Bangladesh continues to develop economically, demand for villa-style living environments is expected to increase significantly.

Anondo Rosemont Estate positions itself at the forefront of this emerging lifestyle trend.

37. The Advantage of Large-Scale Planning

Many housing developments in Bangladesh are relatively small in scale, which often limits the availability of amenities and open spaces.

In contrast, Rosemont Estate spans **807 bigha**, allowing for:

- Wide roads and avenues
- Large parks and recreational areas
- Sports complexes and playgrounds
- Lakes and landscaped gardens
- Community farming zones
- Educational and healthcare facilities

This large-scale planning ensures that the estate can provide a truly comprehensive residential environment.

38. Developer Credibility – The Anondo Group

The success of any real estate project ultimately depends on the credibility and experience of the developer.

Anondo Rosemont Estate is developed under the banner of the **Anondo Real Estate Group**, an organization with a strong vision for community-oriented development.

The group has been involved in several initiatives focused on residential development, community infrastructure, and lifestyle projects.

One notable example is **Anondo Baari Senior Citizens Wellness Center**, located adjacent to the Rosemont Estate site. This innovative project is designed to provide healthcare and wellness services for senior citizens in a peaceful and supportive environment.

The presence of such initiatives reflects the group's broader philosophy of building communities rather than simply selling properties.

39. Commitment to Quality Development

Anondo Group is committed to maintaining high standards of planning, construction, and infrastructure.

The development approach emphasizes:

- Structured master planning
- Quality construction standards
- Infrastructure reliability
- Long-term sustainability
- Community-oriented design

By focusing on these principles, the developer aims to create residential environments that remain valuable and livable for generations.

40. The Future of Estate Living in Bangladesh

As Bangladesh continues to develop economically and socially, residential expectations are evolving.

Homebuyers increasingly seek environments that offer:

- Space and privacy
- Security and infrastructure
- Recreational and lifestyle facilities
- Long-term investment stability

Anondo Rosemont Estate represents the next step in this evolution.

By combining European estate inspiration with modern Bangladeshi development practices, the project creates a residential model that balances elegance, functionality, and community life.

41. A Vision for Generational Heritage

Ultimately, the value of a home lies not only in its physical structure but also in the memories and experiences it holds.

Rosemont Estate is designed to become a place where families build their lives across generations.

Children grow up in safe and green surroundings.

Parents enjoy comfortable and dignified living environments.

Grandparents find peace in nature and community.

In this way, Rosemont Estate becomes more than a residential development—it becomes a foundation for heritage.

42. Why Choose Anondo Rosemont Estate

Choosing a home is one of the most important decisions in life. Beyond financial considerations, it involves selecting an environment where families will live, grow, and create lasting memories.

Anondo Rosemont Estate offers a rare combination of features that distinguish it from conventional housing developments.

A Villa-Based Community

Unlike typical plot-based housing projects, Rosemont Estate provides **complete residential properties with beautifully designed duplex villas**. This approach ensures architectural harmony throughout the estate and eliminates the uncertainty often associated with individual home construction.

Residents receive a ready residential environment that blends elegance, comfort, and functionality.

Spacious Land Ownership

Each home is situated on a private plot of land, allowing residents to enjoy the freedom and dignity of independent living.

Available plot sizes include:

- 5 Katha
- 10 Katha
- 20 Katha

This range allows buyers to select a property that matches their lifestyle needs and investment plans.

Thoughtfully Designed Duplex Villas

The villas within Rosemont Estate are carefully designed to provide spacious and comfortable living environments.

Interior layouts prioritize:

- Natural light and ventilation
- Functional living spaces
- Privacy between family areas
- Efficient circulation within the house

The result is a home that supports modern family life while maintaining architectural elegance.

Harmonious Estate Environment

The estate's planning philosophy ensures that all elements—homes, roads, gardens, parks, and amenities—work together to create a harmonious living environment.

Wide avenues, landscaped green spaces, and consistent architectural design create a neighborhood that feels organized, peaceful, and visually appealing.

Exceptional Lifestyle Amenities

Residents of Rosemont Estate will enjoy access to a wide range of lifestyle facilities, including:

- A grand sports complex
- Three playgrounds
- A 12-bigha central park
- A 12-bigha scenic lake
- A clubhouse and social center
- Community farming spaces
- Educational and healthcare facilities
- Commercial convenience areas

These amenities ensure that residents can enjoy recreation, wellness, and social interaction without leaving the estate.

43. A Community Designed for Families

The design of Rosemont Estate prioritizes family life.

Children can grow up in safe environments with access to playgrounds and open spaces.

Parents can enjoy a comfortable residential environment that balances privacy with community interaction.

Senior family members can experience a peaceful and healthy lifestyle surrounded by nature.

The presence of **Anondo Baari Senior Citizens Wellness Center nearby** further strengthens the multi-generational character of the area.

44. Environmental Balance

Modern living must maintain harmony with nature.

Anondo Rosemont Estate incorporates several environmental features that promote sustainability and well-being.

These include:

- Large green parks
- Extensive landscaping
- Natural water bodies
- Community farming areas
- Open lawns and tree-lined avenues

Such elements create a healthy environment that enhances both physical and mental well-being.

45. Secure Living Environment

Safety is an essential component of residential comfort.

The estate integrates several security measures to ensure the protection of residents and property.

These include:

- 24-hour CCTV surveillance across the estate
- Controlled entry points
- Professional security personnel
- Clearly demarcated property boundaries
- Organized road networks and lighting systems

These features create a secure environment where families can live with peace of mind.

46. A Strong Investment for the Future

Real estate in strategically located, well-planned communities tends to appreciate steadily over time.

Anondo Rosemont Estate offers several advantages that support long-term investment value:

- Large-scale master planning
- Prime location near Purbachal
- Low-density villa community design
- High-quality infrastructure
- Comprehensive lifestyle amenities

As the surrounding region continues to develop, properties within the estate are expected to benefit from increasing demand and rising land value.

47. A Bridge Between Urban Comfort and Natural Living

One of the most appealing aspects of Rosemont Estate is its ability to balance modern convenience with natural serenity.

Residents enjoy the advantages of proximity to a rapidly developing urban corridor while living in a peaceful environment characterized by greenery and open space.

This balance is increasingly rare in modern residential developments and represents a key strength of the Rosemont concept.

48. Designed for Non-Resident Bangladeshis

For Bangladeshis living abroad, owning property in their homeland is both an emotional and financial priority.

Rosemont Estate provides an ideal solution by offering:

- Ready-built duplex villas
- Secure estate management environment
- Strong investment potential
- A prestigious residential address

NRBs can invest with confidence knowing that their property is part of a professionally planned and managed community.

49. The Rosemont Lifestyle

Living in Anondo Rosemont Estate means embracing a lifestyle defined by space, beauty, and dignity.

Morning walks beside landscaped parks and lakefront paths.

Children playing safely in green playgrounds.

Family gatherings in spacious homes and gardens.

Community events in the clubhouse and sports complex.

These experiences transform daily living into something richer and more meaningful.

50. A Legacy for Generations

The ultimate value of a home lies in the legacy it creates.

Homes become the setting for family celebrations, milestones, and memories that span generations.

Anondo Rosemont Estate is designed to support that legacy.

Its spacious homes, natural landscapes, and thoughtful community planning create an environment where families can build enduring traditions.

Under the guiding principle **“Elegantia in Aeternum – Elegance Forever,”** the estate represents a commitment to timeless living.

51. Invitation to Become Part of Rosemont

Anondo Rosemont Estate invites discerning homeowners and investors to become part of a community defined by elegance, harmony, and vision.

Whether you are seeking a permanent residence, a second home, or a secure investment opportunity, Rosemont Estate offers a rare combination of features that make it truly exceptional.

Here, land ownership becomes more than an asset.

It becomes a foundation for lifestyle, community, and heritage.
